FAR

FAR

Editors, directors, economists.*

BAE Economic Reports

BAE

BAE

No mailing list is maintained for these reports. As each one is issued, determination is made by BAE as to the workers interested and copies are sent them. Therefore, no assurance can be given that editors will receive reports of interest regularly. However, BAE has a monthly check list of all its publications issued during the month. If you would like to receive this list regularly, it is suggested that you write to the Division of Extension Information requesting that your name be added to the mailing list. You will then be able to determine which reports you would like to receive and send in your request to this office.

Bibliography of Agriculture
(monthly)
